An act to amend Sections 40420, 40425, 40981, and 41221 of the Health and Safety Code, relating to air pollution.

LEGISLATIVE COUNSEL'S DIGEST

SB 886, as amended, Negrete McLeod. Management districts: district board.

(1) The Lewis-Presley Air Quality Management Act establishes the South Coast Air Quality Management District in those portions of the Counties of Los Angeles, Orange, Riverside, and San Bernardino included within the South Coast Air Basin as the local agency with the responsibility for comprehensive air pollution control within the basin. The act requires the election of a chairperson of the south coast district board every 2 years, and requires that no member serve more than 2 consecutive terms as chairperson.

Existing law establishes the Sacramento Metropolitan Air Quality Management District within the County of Sacramento, and requires the election of a chairperson of the Sacramento district board every 2 years, and requires that no member serve more than 2 consecutive terms as chairperson.

Existing law establishes the Mojave Desert Air Quality Management District within certain areas of San Bernardino and Riverside Counties, and requires the election of a chairperson of the Mojave Desert district board every year, and requires that no member serve more than 2 consecutive terms as chairperson.

This bill would delete all of the above-referenced prohibitions on a member serving more than 2 consecutive terms as chairperson.

(2) The Lewis-Presley Air Quality Management Act requires the south coast district to be governed by a district board consisting of 12 members, including 3 members appointed, one each, by the city selection committees of Orange, Riverside, and San Bernardino Counties, one member appointed by cities in the western region of the County of Los Angeles, and one member appointed by the cities in the eastern region of the County of Los Angeles. The specified cities in each region are required to organize a city selection committee and hold a public meeting to determine the appointment from the region. Existing law prescribes the cities, including Los Angeles, that comprise the western region of the County of Los Angeles, and provides that those cities not included in the western region are deemed to constitute the eastern region for the purpose of appointing members to the district board.

This bill would increase the number of members on the south coast district board from 12 to 13 by adding one new member appointed by the Mayor of the City of Los Angeles from among the members of the Los Angeles City Council. The bill would add certain cities to, and exclude Los Angeles from, the list of cities included in the western region of the County of Los Angeles. The bill would exclude the Cities of Lancaster, Los Angeles, and Palmdale from the cities included in the eastern region.

The bill would require the member serving on the board as of June 1, 2007, appointed by the western region of Los Angeles County to be deemed to be the member appointed by the Mayor of the City of Los Angeles until the end of that member's term, and would require the member serving on the district board as of June 1, 2007, appointed to represent the eastern region of Los Angeles County to be deemed to be the member appointed to represent the western region. The city selection committee of the eastern region of Los Angeles County would be required to convene promptly to make an appointment.

Because the bill would impose additional duties on cities within the south coast district, this bill would establish a state-mandated local program.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes.

State-mandated local program: yes.

The people of the State of California do enact as follows:
